

Zarhayda Tun

Software Engineer
Zip Co Limited

To whom it may concern,

I worked alongside David Al-Shammary as a Graduate Software Engineer at Zip Co Limited from April 2018 to June 2019.

During this time, David slowly became a mentor for me and the other graduate engineers as a go-to person for any Angular related problems, questions, or best practices.

I enjoyed working with and learning from David. He has helped me become a better developer and aided me in both professional and personal growth.

David was also very keen on knowledge sharing with the rest of the company on any new technologies or methods that he felt would benefit the company and the rest of the engineers working there.

I have enjoyed listening to his presentations on Golang, Node object oriented programming, and Angular best-practices.

Kind Regards,
Zarhayda Tun
